The Zamindar Suite A perfect example of "green" architecture harmonizing with classic luxury. The structure itself, the sheer beauty of it, is made from earth hollowed out of the ground. The hollow then naturally filled with water by mother nature, has become the private lake on which the king-size Zamindar Suite rests. The use of decorative terracotta tiles and the earth crafted walls punctuated with handpicked woodcarving are tastefully juxtaposed with an elegant fore-poster bed, vintage writing table, antique rocking chairs, an intimate Jacuzzi and twin bathrooms.
